Range

RIDGEBACK

[www.ridgeback.co.uk](http://www.ridgeback.co.uk)

2019 sees a revolution for Ridgeback. All new branding, bold but classic colourways, completely revised frame designs and a clear focus on the direction of our range ensures that the product featured in this catalogue is our strongest to date.

Functional, desirable, attainable. Welcome to the new Ridgeback.

## Metro Utility

Focusing on three core areas, Metro Utility goes big on comfort, practicality and reliability. Features like wider tyres, new and improved geometry and a high-density saddle material put the pleasure back into cycling. Clearance for mudguards and mounting points for a pannier rack ensure that you'll be sorted for riding in all weather conditions whilst being able to carry luggage with ease. Shimano componentry provides you with precise shifting and braking, taking away the stress of gear changes up that killer hill whilst giving you confidence in descending the other side.

The overhauled Metro Utility range offers great bicycles at great price points for everyone from the daily commuter to the fitness enthusiast.

## Comet

**Frame** 6061 heat treated aluminium  
**Fork** Hi Ten / CrMo w/ mudguard eyelets  
**Shifters** Shimano 7-speed Revoshifter

From A  
 — to B

Taking the ethos of our updated Utility range, the Metro Trail bikes add a suspension fork and 40c gravel tyres to further widen your cycling experience. Forest tracks and gravel towpaths are no longer out of bounds.
